

CERTIFICATE
of Continuing Professional Development

This certificate records the attendance of

Mr Fred Bloggs
.....

of
Design Partnership

at a course on

Pressurisation of heating and chilled water systems

Date

Entitled

How correct pressure control can prevent the
'Sick System Syndrome'

Key Elements of course:

- *The Physics of water*
- *Oxygen diffusion*
- *The causes of corrosion*
- *Boyles law and calculating expansion vessels*
- *The effects of incorrect vessel selection*
- *Henry's law and the need for deaeration*
- *The importance of correct venting of systems*
- *Selecting the right pressurisation system*

Duration: 1.5 hours

This course can contribute to your CIBSE CPD requirement
